EDUCATION

- National Institute of Technology, Silchar** Assam, India
B.Tech in Civil Engineering; CGPA: 7.64 2023 – Present
- Sarala Birla Gyan Jyoti** Guwahati, India
Higher Secondary Certificate (HSC); 86% 2020 – 2022

INTERNSHIP AND HACKATHON EXPERIENCE

- Urban Vision Hackathon – IISc Bangalore** Remote
Participant 05/2025 – 06/2025
 - Dataset Development:** Developed large-scale traffic dataset using computer vision annotation, processing 10k+ images for smart city initiatives
 - Team Collaboration:** Collaborated on AI models, improving data accuracy
- 3-in-1 Transformable Bot — SIH Hackathon** Live Website — Github(Documentation)
Full Stack Developer & Hardware Integration 09/2025
 - Multi-Modal Robotics:** Engineered transformable drone-boat-car system using PLA biodegradable material with obstacle avoidance VL53L0X sensor
 - Web Platform:** Built educational website with Next.js featuring STEM tutorials and 3D model visualizations
 - System Integration:** Developed wireless control system with NRF24 module implementing mode switching and stunt capabilities

PROJECTS

PORTFOLIO

- Hybrid ATS Resume Reviewer** Live — Github(App) — Github(FastApi)
Next.js, TypeScript, Python, FastAPI, LangChain, NeonDB, Prisma, Redis 08/2025
Built hybrid ATS resume reviewer for on-campus SDE and Data Analyst roles with peer-based rankings
Implemented keyword matching using python REGEX patterns, with GenAI feedback via LangChain + Gemini
Engineered scalable backend with FastAPI + NeonDB via Prisma ORM with OAuth authentication
- Multimodal RAG Chatbot System** Github
FastAPI, Python, LangChain, Pinecone, OpenAI GPT-4o, OCR (Tesseract), PDF Parsing, Next.js 2025
Built PDF/image upload pipeline with GPT-4o + OCR text extraction and Pinecone embeddings
Created RAG chat flow that searches Pinecone and uses LLM for contextual answers
Maintained per-session chat history for natural follow-up questions
- Retail Demand Analysis**
Python, Pandas, Scikit-learn, Power BI, Statistics 06/2025 – 07/2025
Built demand forecasting models for retail inventory during out-of-stock periods.
Improved baseline forecasting accuracy by over 90% using statistical and machine learning techniques.
Analyzed OOS patterns to optimize inventory management and reduce lost sales opportunities.

TECHNICAL SKILLS

- Programming Languages:** Python, C, C++, C#, Java, JavaScript
- Frameworks & Libraries:** TypeScript, Node.js, Express.js, React, Next.js, Prisma, Redis, ImageKit, Inngest, LangChain, LangGraph, LangServe, PostgreSQL, MongoDB, NeonDB
- Data Analysis & Machine Learning:** Pandas, NumPy, Matplotlib, Seaborn, Regression, Supervised & Unsupervised Learning, Regular Expressions(Regex)
- Tools & Platforms:** Git, GitHub, Postman, MongoDB Compass, Jupyter Notebook
- Frontend Technologies:** Tailwind CSS, shadcn/ui, Radix UI, WebSockets, WebRTC
- Concepts:** Razorpay integration, OAuth, REST APIs, DB optimization, Responsive design, JWT auth
- Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Teamwork

LEADERSHIP & ACTIVITIES

- Team Lead, Hackathon:** Led national-level hackathon project, coordinating team of 5 members
- E-Cell Event Management:** Supported logistics and execution of 10+ events for entrepreneurship cell

CERTIFICATIONS

- **AWS Educate:** Machine Learning Foundations & Introduction to Generative AI
- **Deloitte:** Technology Job Simulation
- **HackerRank:** Software Engineer Intern Certification
- **Urban Vision Hackathon:** IISC Bangalore Participation
